## PROFESSIONAL SUMMARY

---

I am a passionate and driven software developer specializing in front-end technologies, with a roadmap to full-stack expertise. Proficient in creating responsive and interactive web applications using HTML5, CSS3, and JavaScript, with hands-on experience in open-source contributions and collaborative projects. I'm eager to contribute to innovative web solutions, particularly in e-commerce and user-focused applications, while building on foundational back-end knowledge. Known for problem-solving, adaptability, and strong collaboration skills, I am committed to continuous learning and delivering impactful digital experiences.

## EDUCATION

---

### Moringa School

Certificate in Software Development \*(Expected: December 4, 2024)\*

### Maseno University

Bachelor of Arts in Urban and Regional Planning with IT \*(Second Class Upper, August 2015 – July 2019)\*

## SOFT SKILLS

---

1. Problem-Solving and Critical Thinking
2. Effective Team Collaboration
3. Strong Communication and Writing Skills
4. Time Management and Organization
5. Creativity and Design Sense

## WORK EXPERIENCE

---

### Open-Source Contributor(2024 – Present)

- ✓ SpaceHub Project: Enhanced web responsiveness using Tailwind CSS and media queries, collaborating with a team to deliver an accessible and modern web application.
- ✓ Restaurant Website: Contributed to the "Contact Us" and "About" pages, introducing interactive JavaScript features for a better user experience.
- ✓ Participated in code reviews, improving code quality and maintainability.
- ✓ Assisted in creating responsive layouts and ensuring compatibility across browsers and devices.

### Volunteer Web Developer(2023 – Present)

- ✓ Designed a responsive website for a local non-profit organization to improve online engagement and donations.
- ✓ Implemented interactive features like event sign-ups and donation forms to enhance user experience.

## Freelance Developer\*\* \*(2024 – Present)

- ✓ Created custom websites and digital designs for clients, ensuring a balance between technical functionality and aesthetic appeal.
- ✓ Designed visually engaging logos and graphic art for personal and client projects.
- ✓ Provided proofreading and writing services, showcasing exceptional attention to detail.

## PROJECTS

---

### Digital Resume

[Live Site](<https://dumbface-52.github.io/digital-resume/>)

| [GitHub](<https://github.com/DumbFace-52/digital-resume>)

- Built an interactive resume website using Vanilla JavaScript for seamless navigation and interactivity.
- Designed a fully responsive layout to enhance cross-device usability.

### SpaceHub

[Live Site](<https://spacehub2.netlify.app/>)

| [GitHub](<https://github.com/MartinnnnOwuor/group4>)

- Collaborated on a team project to develop a responsive web application using Tailwind CSS.
- Integrated advanced media queries to ensure an optimal viewing experience across devices.

### Restaurant Website

[GitHub](<https://github.com/DumbFace-52/restaurant-website>)

- Added new pages, including "Contact Us" and "About," using JavaScript for dynamic functionality.
- Ensured a mobile-first design approach with optimized media queries and responsive layouts.

### Taco-Shop Landing Page

[GitHub](<https://github.com/DumbFace-52/Little-Taco-Shop>)

- Developed a visually appealing landing page with custom light/dark mode functionality.
- Used modern CSS techniques to create a polished and responsive design.

## ACHIEVEMENTS

---

1. Successfully contributed to open-source projects, enhancing features and usability.
2. Designed and delivered visually appealing digital products for clients, combining artistic creativity with technical precision.
3. Created group projects like SpaceHub and Shopping Cart, demonstrating excellent collaboration and problem-solving skills.

## HOBBIES & INTERESTS

---

1. Art & Design
2. Gym and Fitness
3. Exploring New Technologies
4. Writing and Proof Editing
